## BRITISH GOVERNMENT MOVES TO PUT END TO IRISH TERRORISM

Military Inquiry Under  
Way To Probe Sacking  
Of Towns.  
PUNISH OFFENDERS  
Chief Cause Of Alarm Cen-  
ters Around Hunger  
Strikers.

London, Sept. 24.—The government moved today to end police terrorism in Ireland. A military inquiry into the sacking of six Irish towns is under way and it will be followed by a judicial investigation. "Those responsible for the sacking and shooting up of towns and the conflagration will be punished whether they were policemen or soldiers," it was announced by the Irish office today. "Numerous arrests have been made this week as a result of the increased efficiency of the secret service in Ireland, which has now surpassed the mark of efficiency established in war time. It is believed that the best method of restoring order will be quick action on information furnished by the secret service agents."

This has been a week of violence, sudden deaths and fires in many parts of Ireland. The outbreaks were: Sunday—The battle between Sinn Feiners and military policemen in and near Dublin.

Monday—Barrington sacked and two civilians killed.

Tuesday—A man believed to have been a Sinn Fein spy found shot to death in a field in county Carlow.

Wednesday—Milltown-Malbay, Lehigh and Ennistown attacked by policemen. Violent fighting occurred between policemen and civilians in which ten persons were reported killed. Many houses destroyed by fire.

Counsellor John Lynch of Limerick, a Sinn Fein leader, shot to death at Dublin.

Use Bodyguards.  
Body guards now protect the higher officials of the Sinn Fein organization at Dublin and elsewhere as a result of the increased activity of the Black and Tan policemen.

Quiet prevails at Belfast. The Irish office has decided against further arming of civilians in Belfast. It is announced that if Sir Ernest Clarke, under secretary for Ireland, who is now in Belfast can develop a scheme by which an equal number of protestants and Catholics can be armed, the people will recognize the integrity and impartiality of the movement and subscribe to it. The cabinet will not make a further move towards arming civilians at Belfast or employing Ulster volunteers until Sir Ernest Clarke presents a plan which he is convinced will work smoothly.

One of the chief causes for alarm now is the possibility that Terence MacSwiney lord mayor of Cork, or some of the eleven hunger strikers Sinn Fein prisoners in the Cork jail may die precipitating more violent disorders than any which have yet occurred in Ireland.

Threats of strong reprisals are being made openly by the Sinn Fein. Sir Nevill MacReady, commander of the British forces in Ireland, has taken steps to cope with them, but it is not known exactly what form the Sinn Fein attacks may take. Troops and policemen have been massed at strategic points in Ireland, chiefly upon the coast.

Government officials feared that the Sinn Feiners or their sympathizers might concentrate their assaults upon coast guard stations which would imperil shipping.

## BOND ISSUE VOTED FAVORABLE BY CITY BODY ON THURSDAY

Sum Of \$80,000 Passed  
By Commission In  
Meeting.

A bond issue in the sum of \$80,000 was voted upon favorably by the city commission at the meeting Thursday night, to cover the deficit existing on the West Main street at a paving contract.

Of this issue, \$20,000 is to cover the city's share of the deficit and \$60,000 to cover the property holders' share. The bond issue will pay for the D. S. & X. traction company's share of paving on these streets as the traction company will pay 1/3 share in yearly assessments the same as property holders. This makes the bond issue unusually high, the money however being returned to the city in the yearly assessments.

A petition was presented to the commission at the meeting Thursday night signed by property owners on Bellbrook avenue, requesting that Harry Selfert, who owns property on the street, be asked to cut the hedge along his property.

The proposition of repairing paved streets that are worn in places was taken up by the commission and it is possible to do so repairs will be made on the streets while the paving contractors are in this city.

## PRESS BOUGHT BY HAYS SAYS GOVERNOR COX

Charges 18 Newspapers Of  
Arizona Worked Against  
Him.

COLUMNS ARE CLOSED

Governor Declares These  
Papers Used Little Of  
His Speeches.

En Route with Governor Cox, Trinidad, Colo., Sept. 24.—Eighteen supposedly Democratic newspapers in the state of Arizona, Governor James M. Cox charged today, have been purchased with the funds of the Republican national committee and he believes similar operations on even a larger scale are being carried out in a number of other western and northwestern states. Never the less, the governor entered Colorado today, eastward bound convinced that he will carry a majority of these states.

"I am going back east," he said, "to tell the people of the effort that is being made to keep the truth from the people of the west. It is not fair to them. They deserve to hear both sides and they are going to."

Precede Cox.  
The governor charged that personal representatives of Will H. Hays, chairman of the Republican national committee have preceded him for weeks, calling upon editors in cities where the governor was to speak and endeavoring to persuade them to print as little as possible concerning the governor's meetings and to misrepresent the impression he makes.

"All through Oregon, Washington and California," the governor said, "I have encountered the same phenomena, newspapers printing a series of questions just as I arrive in the city, questions all bearing the same earmarks and all designed to befog the real issues of this campaign."

Belief Now Prevails In  
Berlin Of Big Ca-  
tastrophe.

Berlin, Sept. 24.—Germany is drifting steadily in the direction of bankruptcy. The conclusion, which has often been expressed in the past week is strengthened, if anything, by the statement of Minister of Finance Wirth to a cabinet meeting called to discuss national finances.

His announcement that the national debt is 242,700,000,000 marks was not a surprise to those in high financial circles, but created something of a sensation, followed by pessimism with the general public.

The announcement tends to confirm the belief held in many quarters that it would be utterly impossible to pay off or to carry a steadily increasing burden. Some go so far as to say that going through bankruptcy would not be the worst evil that could befall Germany, since it seems inevitable in the end. The bankruptcy, they say, would give Germany a new start on a new basis.

GERMANY FACES TERRIBLE FINANCIAL  
SITUATION IF COUNTRY IS BROKEN UP

President Noske Of Province Of Hanover, Declares  
Present Bankruptcy Glittering Pros-  
perity In Comparison.

Hanover, Sept. 23.—(Delayed)—"Our present bankruptcy is glittering prosperity compared with what we will look like if Germany is broken up into a lot of small states, as the French wish," says President Gustave Noske, new head of the province of Hanover. He further outlined his views for the International News Service today as follows:

"The separatists have an idea that the small states will save money if they can escape the taxation of the federation. The exact opposite is true. The individual states almost

without exception, are a financial liability on the national state. "The national deficit was not created by expense in the official Wilhelmstrasse of Berlin; the outlay of money our seventy billion paper marks represent was spread over the entire reich."

"None of the small individual states is self supporting. Separation would mean increased expenses for them, not a saving. It would require more state officials to carry out the duties now carried out by the national officers."

## PRICE DECLINE TO BE GENERAL IS PREDICTION

Secretary of Commerce  
Alexander Sees Slump  
Coming.

FEW FORERUNNERS.

Says Announced Cuts Will  
Be Followed By Many  
Others.

Washington, Sept. 24.—A general decline in commodity prices was forecast today by Secretary of Commerce Alexander as a result of the announcement of price reductions by Henry Ford, the Franklin Auto Company and New England Cotton Goods manufacturers.

Alexander believes that the sharp cut made in these commodities is only a forerunner to a general decline in prices.

"The people of the United States have the money and are willing to spend it but they have reached the place where they are demanding full value for the money they spend," the secretary declared.

Production will not be affected and buying will be stimulated by the decline in prices, he indicated. The fact that the first cuts came from the manufacturers has strengthened the belief that lower prices will become more general.

A drop in woolen goods, clothing and shoe prices is forecast for the immediate future, with cuts in two of the largest industries already at hand, other industries will follow, is the claim made by the secretary.

Failure of Credit.  
Failure of the federal reserve board to extend credit for the storing of food stuffs is expected to bring down prices in the sale of the crops from the present harvest.

Prices have begun to hit the toboggan and gradual recessions will be extended to many fields, according to reports which reached the treasury department and federal reserve board today.

Secretary Houston said he considered most significant of what is coming, the price cuts put into effect by manufacturers of automobiles and cotton goods.

"Industry will not reach its pre-war status for many years," said Mr. Houston, discussing further price reductions. "The belief is that these recessions will be gradual rather than sudden. In many lines of course the price cuts may be as sharp as those already noted, but the reductions may not be made in wholesale fashion. There is every indication that industries cannot longer maintain their profits at unreasonable levels. The attitude of the buying public, refusing to pay exorbitant prices is in part responsible for further price reductions that may be expected."

Reports from reserve bank agents show manufacturing plants in the larger producing centers are greatly overstocked as a result of cancellation of orders and the slowness of merchants to put in new orders.

## JURY COMPLIES WITH WOMAN'S REQUEST; ACQUITTAL GIVEN

Toledo Woman Tried On  
Murder Charge Gets  
Freedom.

Toledo, O., Sept. 24.—Complying with her request, a jury last night acquitted Mrs. Hattie Overmyer, charged with being implicated in the murder of "Mother" Madge, aged recluse here, ten years ago. The Overmyer woman had asked that she be given either the electric chair or acquittal. The jury was out five hours.

After her acquittal, Mrs. Overmyer rushed to the side of her father, John Flowers, whose story that she had confessed the murder to him resulted in her arrest, and cried that she still "loved her dad."

Her husband, also, is held for the Madge murder, but, authorities said today, it is doubtful if he will be brought to trial.

## NEW PRESIDENT OF FRANCE A SOCIALIST

Premier Millerand.

Alexandre Millerand, newly elected president of France, has been one of the foremost figures in the political life of that country, his entry into Parliament dating back to 1885 and his cabinet experience to 1889, when he became a member of the Waldeck-Rousseau Cabinet.

His early affiliations were with the radical Socialists and he always has been keenly interested in labor questions, and has fathered numerous measures for the betterment of the working world, notably the old-age pension act, which became operative in 1905.

It was M. Millerand's services to his country during the great war, however as Minister of War in the Viviani Cabinet, and his notable conduct of France's foreign policy as the success of Clemenceau in the premiership after the "Tiger's" retirement last January that raised him into pre-eminent eligibility for the presidency, compelled his reluctant consent to quit the premiership and stand as candidate to succeed President Deschanel.

## SOVIET FORCES DRIVEN FROM FRONT POSITIONS

Are Flung Across Dneiper River To Western Bank Says  
War Office Communique; Alexandrovsk  
Admitted Lost.

Paris, Sept. 24.—The soviet troops on the Crimean battle front have been driven from Alexandrovsk, 140 miles northeast of Odessa and have been flung across the Dneiper river to the western bank, it is admitted in a soviet war office communique wirelessly from Moscow today. The communique says:

"We have lost Alexandrovsk on the Crimean front after a violent battle. We now occupy positions on the west bank of the Dneiper river.

"On the Polish front a battle rages in the sectors of Volkovysk Prushany and Volatchisk. The enemy has been driven back."

## MORE FACTORIES SEIZED BY SOVIET

London, Sept. 24.—More factories have been seized by Italian workers despite the agreement reached by the firms and steel employees and the mill owners, said an Exchange Telegraph dispatch from Rome today. The labor leaders admit they are powerless to enforce the order to evacuate the seized plants. The workmen are insistently demanding that they be paid their regular wages for the time they occupied the factories.

## GEORGES LEYGUES IS PREMIER OF FRANCE

Paris, Sept. 24.—Georges Leygues, minister of marine in the Clemenceau cabinet, today accepted the premiership, succeeding M. Millerand who was elected president of France yesterday. M. Leygues also will hold the post of foreign minister. The other members of the Millerand cabinet will retain their portfolios for the time being.

## ITALIAN WORKMEN READY TO LAUNCH ATTACK AGAINST U. S.

Fiery Denunciation Of Wilson and Government  
Issued.

Cambridge, Mass., Sept. 24.—A fiery appeal to workmen to answer Wilson's challenge and overthrow the government of the United States, was contained in hundreds of circulars spared broadcast through the Italian section of East Cambridge today.

The circulars, issued by the United Communist party of America, called on workers to "stand shoulder to shoulder with the revolutionary workers in all countries in the struggle and overthrow the capitalist governments and world capitalization."

Issued in the form of a proclamation the circulars declared that the Wilson administration had broken its promises to the Russian worker and peasant and was trying to overthrow soviet Russia.

## SATURDAY WILL END CAMPAIGN IN OHIO CITY

Senator Harding To Deliver  
Last Of Porch  
Talks.

BIG DAY IN MARION

Thousands To Hear Nom-  
inee In His Closing  
Address.

Marion, O., Sept. 24.—Hundreds of West Virginia Republicans will come to Senator Warren G. Harding's front porch today to be addressed by the candidate. Most of the West Virginians motored through from their home state, stopping over in Columbus en route.

The West Virginia pilgrimage is one of the last of the strictly front porch campaign, which, with the exception of his Minnesota trip, Senator Harding has carried out since his nomination. The front porch campaign officially ends tomorrow with one of the biggest days Marion has seen.

Nearly three thousand traveling men, all members of the Harding and Coolidge Traveling Men's League, will descend on Marion tomorrow from many large cities of the east and middle west. Special trains will begin pouring into the city early tomorrow. Elaborate preparations are being made for their reception and entertainment during their short stay here.

While tomorrow officially marks the closing of the Marion campaign, Senator Harding will receive pilgrimages here between the trips which have been arranged for him during October. Senator Harding also plans to dip more deeply into the Ohio campaign during the next month, devoting as much time there as his other engagements permit. Several dates are in the making for speeches through the state.

Financial experts have informed Secretary Houston that under the present tax scales the government's revenues will be sufficient to pay off the floating indebtedness within the next three years. This is based upon the assumption that larger disbursements will not be necessary. Expenditure for the army and navy are steadily decreasing and outlays for the railroads are showing a big decline. Disbursements on account of loans to the railroads out of the revolving fund of \$300,000,000 provided by congress to aid the roads in making betterments of various kinds are being met gradually, without strain upon the treasury.

A most hopeful view now is taken of the country's general financial condition and the government's finances are in excellent condition, according to the latest compilations laid before Secretary Houston.

The administration, it was officially declared, will oppose any attempt by Congress to make an upward revision of the tariff, under the guise of giving further protection to the American industries. Throwing up the tariff bars still higher, officials say, would still further reduce imports to a point dangerous to our foreign trade.

Man Held for Crime In  
Serious Condition In  
Hospital.

Columbus, Sept. 24.—Patrolman A. G. Schneider died in a hospital today following a battle with an alleged thief in the latter's automobile which was being used to take the prisoner, Wm. Adams, 24, to jail. Patrolman Schneider had tussled with Adams in an attempt to force him to drive the car to the city prison. Adams, it is charged, fired three times at the patrolman. Adams, who was cut by flying glass, was in a serious condition today in a hospital. Police say they found a hack saw sewed in his belt while there were holes in his shoes heels into which gum had been placed—a device commonly used for secreting gems. Adams, an electrician is married but lives apart from his wife.

SLIGHT IMPROVEMENT  
IN CONDITION OF  
MAYOR MACSWINEY

Hunger Striker May Live  
Several Days  
Longer.

London, Sept. 24.—Slight improvement was shown today in the condition of Terence MacSwiney, hunger striking lord mayor of Cork. It was announced at Brixton jail that MacSwiney was conscious and that the pains in his head had abated. The prison physician said that MacSwiney probably would live for several days more unless he suffered a heart attack.

An entirely new guard was placed around the prison today. The day guard has been increased to four times its previous strength.

## HIGH SCHOOL PAPER TO BE REVIVED BY LOCAL STAFF

Plans are already being laid at Central High School for the resumption of publication of the Central Hi Review, the official organ of the school, which has represented the institution in journalistic circles for the past two years.

The new staff elected at the mid-semester last year will handle the publication for the first part of this year, when it will give way to a new staff, to take up the burden at the end of the semester. Added to this staff, will be a faculty business manager, Morton Creswell, Science teacher, having been selected to fill this position.

It is thought that the initial edition of the miniature four-page paper will be gotten out next week. Plans to get the publication started this week were unsuccessful and the paper will be delayed a week on that account. With the resumption of publications, plans are being made to make the newsy little sheet better than ever before, declare members of the staff.

The staff now consists of editor-in-chief, Miss Margaret Webster; associate editor, George Shoup; general reporter, Miss Eleanor Kiernan; literary editor, Miss Sabina Ross; society editor, Miss Martha J. Finley; athletic editor, Robert Ballentyne; scandal editor, Miss Gertrude Jones; feature editor, Miss Margaret Davis; exchange editor, Miss Olivia Cost; alumni editor, Miss Fannie K. Haynes of the faculty; Junior High reporters, Miss Maed Wynne Monroe and Geo. Prugh; business manager, Miss Elizabeth Dodd; circulation manager, Carlson Anderson; advertising managers, Horace Smith and Roger Lynn. The faculty adviser is Miss Janet McBane.

The paper is issued every two weeks, and its subscription price is 60 cents a year, or three cents a copy. The paper is a member of the North Central Association of High School Journalism.

## BODY OF WEALTHY MAN FOUND BURIED IN CELLAR IN BOX

Los Angeles, Cal., Sept. 24.—Finding of the body of Jacob Charles Denton, Los Angeles, capitalist, who disappeared four months ago, buried under several tons of earth in a hermetically sealed box in the cellar of a house at 675 Catalina street, brought to light what the police characterize as the most weird murder mystery in the history of the city.

Physicians said Denton had been dead about three months. The body was found by a private detective engaged by Denton's attorney, Judge Avery, when Denton's continued absence aroused his suspicions.

Judge Avery said Denton had been divorced and had a daughter, Frances Denton, living in Phoenix, Ariz.

Denton had left a will with Judge Avery, and when the latter wished to consult with his client about the instrument he was unable to find him.

The house in which Denton's body was found was his property but had been occupied by tenants for some time. The present tenant took the property through an agent about a month ago. Former tenants were the subjects of search today.

## Is It Yours

THIS IS THE BIRTHDAY OF  
JOHN DE WITT  
September 24, 1625

John De Witt, one of the greatest statesmen produced by Holland, fell a victim to the fury of a mob—the same mob which had once stood for days in order to cheer him when he passed by.

De Witt was born at Dort, Holland, in 1625. He came of a famous family and his father was one of the principle opponents of William II of Orange. John, with his brother Cornelius, traveled over Europe and came back to find that William, of Orange, had seized his father and put him in jail. But the Prince died before he could execute the elder De Witt.

John De Witt was so well thought of that at 28 he held the highest position of honor at Dort. He rose steadily until he was the most important man in Holland. He pulled his country out of a disastrous war with England, although the Dutch had to agree to strike their flags when they passed an English merchant vessel. He restored the confused finances of the country to order. He built up the great trade with East India which made Holland for a time one of the greatest nations of the world, and he put through an alliance with England and Sweden to check the greedy advances of Louis XIV.

Meantime the party in favor of William III of Orange grew so strong that it overthrew De Witt. He went to see his brother Cornelius, who had been put in prison, and while visiting him an infuriated mob broke in, seized the two men, and literally tore them to pieces. The scattered parts of their bodies were hung outside the prison.

## TYPHOID REPORTED IN CITY OF PIQUA

Piqua, O., Sept. 24.—Several additional cases of typhoid fever have been reported to Dr. J. H. Lowe, health commissioner, and it seems as if Piqua is suffering an epidemic of the dread disease. Officials of the State Board of Health are co-operating with the local authorities in an effort to check it.

Investigations are being made to determine the source of the germs. Dr. Lowe suggests that people boil their water and milk before using it as this will greatly reduce the chances of contracting the disease. The only way to kill the typhus germ is by boiling as extreme cold only tends to keep them dormant.

## SHOOTS WIFE THEN TAKES OWN LIFE IN DAYTON STORE

Dayton, O., Sept. 24.—Two girls, 5 and 2 years old, witnessed part of a shooting tragedy that made them orphans here this morning when Stella Parmenais, 33, was killed by her husband, Joe, 35, who a few minutes later shot himself in a nearby confectionery.

The husband came to Dayton from their home in Detroit, Friday morning and hunted up his wife, who it is said was living with Martin Makricko, with whom she came from Detroit, several days ago. A man of whom the husband asked the wife's whereabouts notified police, and two officers were sent out. They accompanied the husband to the wife's room where she was awakened and asked to return to Detroit. She refused, but the officers say the couple were in control of themselves. After searching Parmenais for a revolver or other arms, they released him. A few minutes later, neighbors heard four shots fired and then saw the husband rush from the house. Continuing five blocks, he entered a confectionery and shot himself.

## EXPLAINS FINANCES OF HOME FOR AGED

Dr. C. M. VanPelt, general manager of the Home for the Aged at Cincinnati, is explaining to the fall conference the finances of the institution and why admission fees have had to be raised. The support received from the churches of the West Ohio Conference would run the home for a little over two weeks; from the North-East Ohio Conference, only four days; and from the Ohio Conference only two days, he says.

The endowment income is not at all sufficient to meet the current expenses for the rest of the year. The old people must be fed, clothed and sheltered. The only way left to raise expenses is to increase admission fees, he declares, and this proceeding has been very embarrassing, because many worthy cases have had to be refused and the impression is being given that the home is only for the well-to-do and is therefore not a charitable institution.

## ANNOUNCE DESIRE OF BRINGING SUIT AGAINST PLANT

As a result of the sudden shut down of the Washington, C. H. Gas and Electrical Company Monday, paralyzing industry in the city, The Sears and Nichols Company has announced that it will present a claim against the company for damages resulting from the closing down of their plant. Other concerns it is said will also sue the power plant for damages resulting from the cessation of operations, which threw thousands of people out of work.

Thomas Archer, assistant chief deputy as the Industrial Commission of Ohio, gave out the statement to a Washington concern that no definite order for closing the plant had been issued although August Deschler, inspector who had made the rounds of the city recently had advised the company that the power plant must have a licensed engineer by the first of this week or they would close the plant.

Manager Gross of the Washington plant called Thomas Archer of the Industrial Commission immediately after the plant closed. Mr. Archer is said to have indicated that it was the belief that no serious effort had been made to obtain the licensed engineer demanded, and that the threat to close down was largely due to this belief. Mr. Gross is now engaged in looking for a licensed engineer to fill the position.

Meanwhile licensed engineers have been placed at the disposal of the company in case of emergency by several large concerns. The uncertainty connected with the matter has created a feeling of unrest.

## IT'S FOOLISH TO SUFFER LONGER

Mr. McClure says every one can get relief just like he did. Three bottles of Decco fixed him up fine. Also took the ache out of his rheumatism and banished a severe case of constipation.

"I've found out from my own experience that it is foolish for people to be annoyed any longer by catarrh," said Mr. Charles F. McClure of 2536 Mt. Pleasant Pike, Hamilton, Ohio.

"I know what it is to hawk and spit and try to clear your nose, throat and head for a couple of hours every morning. I know what it is to have a constant drip dripping into my throat that keeps me constantly trying to clear it out. I also know what heavy breathing and unsound sleep catarrh causes and the head noises too."

"But I also know after trying lots of remedies, what will go right to the seat of the trouble and overcome these annoying symptoms. Decco will do it. Decco did it for me and it's foolish for people to suffer like this when this grand medicine is within the reach of everyone."

"Decco also eased a bad case of aching rheumatic joints; got my bowels to acting regular every day whereas, before I used to be severely constipated. This is great medicine and I strongly advise sufferers to give it a trial."

All druggists now sell Decco and it is being especially introduced in Xenia by Sohn's Drug Store.

## AL. JOLSON WILL APPEAR AT VICTORY

Al Jolson, as celebrated as the sun, and incidentally the world's greatest entertainer, with his company of 120 merry makers, will be the attraction at the Victory Theater, Dayton, for three days starting Thursday night Sept. 30th with a special matinee on Saturday.

During the nine seasons in which Al Jolson has been the star of the Winter Garden he has never before had such an ample budget of comic ditties and in the singing of a song Jolson has no rival. In "Sinbad" he impersonates Inbad the Porter, a role which gives him unique opportunity for the display of his abilities not only as a great singer of comic songs but as an all-around laugh producer.

## PRACTICAL "THRIFT" ILLUSTRATED BY GOVERNOR COOLIDGE.

Governor Coolidge, of Massachusetts, Republican candidate for Vice President, asserting the need of thrift, in addressing the National Association of Life Underwriters at Boston, on Tuesday, said he had not bought a suit of clothes in eighteen months, and that it was two years since he last bought a pair of shoes.

"There are some indications," he said, "that Americans are beginning to understand thrift, and that the law of supply and demand is working again. That will be a benefit to us all. We can see it working out in the great woolen industry of Massachusetts. The last time I bought a suit was in March, 1919. The law is beginning to assert itself also in the shoe industry. The last pair of shoes I bought was obtained two years ago."

This example of practical "thrift," by the Governor of a great State, might be taken as a pattern by some of us who talk frugality, and then practice prodigality.

The wages in some of our lines of industry are so high, that the recipients seem to have the spirit of "come easy go easy," and spend recklessly. And this makes it hard for the poor, the merchant feeling that he "can get any price asked."

If frugality were the established rule, there would be less snobishness, and more real happiness in life. A large part of poverty comes to those who, when they had plenty, spent it recklessly. Prudence is a duty we owe ourselves, and if we neglect it we cannot expect others to feel sorry for us in our extremity.

Ben Franklin left behind him more good maxims than any one else, and Prudence is the pivot on which they mostly turn. And Prudence and Thrift are synonymous terms.

## THE NEW YORK BOMB OUTRAGE SHOWS THIS NO TIME FOR AMNESTY.

Last week Samuel Gompers, representing the Federation of Labor and a group of men representing Socialists generally, sought by insistent argument to induce the Department of Justice to grant amnesty to all "political" prisoners, as they term those who are paying the penalty of having been disloyal to the Government.

This is no time for amnesty. The men whose release is sought have been guilty of firing the unrest in this country which found horrible expression the other day in the New York bomb outrage. That incident will be hailed by radicals the world over as an evidence of victory for terrorism. Every so-called political prisoner, in some measure, is responsible for such outrages as this most recent calamity, which caused the deaths of so many innocent people.

The authorities should listen to no appeal for clemency on behalf of these people. They are unrepentant. If released they would go immediately about preaching their antagonism to this Government. Debs himself, in open Court, boldly has defied the law and denounced the judiciary. Those who believe as he believes have no right to be at liberty in this democracy. It is due to the teachings of these crack-brained theorists, who insolently seek to hide behind the security of guaranteed free speech that revolution continues to be an imminent possibility even in this country.—Cincinnati Enquirer.

## RELIGION IS THE REAL FOUNDATION OF POPULAR GOVERNMENT, SAYS TAFT.

Without religion, popular government cannot survive, says William Howard Taft in a statement defining the religious convictions of an American citizen, as he interprets them. Mr. Taft, honorary chairman of the Unitarian committee in charge of the celebration in Boston, September 21st, on the Pilgrim tercentenary, said:

"The study of man's relation to his Creator and his responsibility for his life to God," says Mr. Taft, "energizes his moral inclinations, strengthens his self-sacrifice and restraint, prompts his sense of fraternal obligation to his fellow men, and makes him the good citizen without whom popular government would be a failure."

This observation is based upon experience which the former President says that any one who has studied the life of a people from the standpoint of a responsible administrator must recognize. Four years as governor general of the Philippines—chief executive of 7,000,000 orientals, among whom were Christians, Mohammedans and pagans—and four years more as President of the United States lead Mr. Taft to say:

"The longer and more intimate my knowledge of their political and social lives the more deeply impressed I have become with the critical importance of the part that the church and religion must play in making popular government what it ought to be and in vindicating it as the best kind of a government that an intelligent people can establish."

"A people without religion are lacking in the greatest aid to the progress of society through the moral elevation of individuals and the community."

Developing his argument for the necessity for the infusion of the religious spirit into the prevailing morality for the purpose of giving it life and persistent influence, Mr. Taft continues: "Go to church!"

"There are doubtless many individuals who live a moral and upright life who are not conscious of religious faith or feeling, or fervor; but however this may be in exceptional cases, it is the influence of religion and its vivifying quality that keeps the ideals of people high, that consoles them in their suffering and sorrow and brings their practices more nearly into conformity with their ideals."

With Ford and Franklins down in price, the long promised drop in the cost of necessities has apparently started, but so far nothing is said about gasoline.

Hays and White seem to be holding varying views on the political outlook. Strange they cannot agree on such small matters.

Our distinguished governor has had a taste of being shaken up in a train wreck, and so ought to be in practice for next November.

France now has a socialistic president. Wonder if he will be a willing to divide his office with others of his belief—if so he might sign his name "Miller and Citizens, President of France."

## THE FISHERS

The fishers, sailing, look to me like men of dauntless daring! and they'll come homeward, o'er the sea, with loads of kippered herring. Before the dawn is fairly sprung I see their boats departing, and fishers old and fishers young on danger's round are starting. Oh, they are brave and buoyant wights, and they are stalwart laddies, and they come whooping home o' nights with loads of finnan haddies. Their vigils in the fog they keep, they know all Neptune's glories, they see the wonder of the deep, and should be full of stories. They anchor in the little bay before my sawed-off dwelling; I visit them at close of day, when cutlerys quit their yelling. "Oh, hoary farmer of the sea," I say, to some old chappie, "hand out a salty yarn to me, and you will make me happy." "There's nothing doing on the deep," the fisher says, a-sighing; "a delegate should landward keep—that's where the news is flying. I always knew that Fulton stiff would never be a winner; it only needed one good bluff to paralyze that sinner. The prize ring now is run to cheese, and most of it is schweitzer; the British champs have some disease, the Frenchman's punk, you're right sir. Oh, yes, we sail our dories out, through all the spray and smother; but there's no yarn in that, old scout—one day's just like another."

## COUNTY RED CROSS TO START MEMBERSHIP DRIVE NOVEMBER 11 TO LAST ONE WEEK

Deputy County Auditor Paul H. Cresswell, has been appointed by Dr. Austin M. Patterson, president of the Greene County Red Cross, to serve as director of the county wide financial and membership drive to be made by the Red Cross November 11-19.

It is the plan of the director to obtain the service of World War veterans in every township in county to assist in the drive, since ex-service men are those who are benefiting largely by home service work of the Red Cross.

Mr. Cresswell, who will direct the drive was a lieutenant in the American aviation forces and was on detached service in Italy for a year and a half.

It is the intention of officials of the county Red Cross prior to the opening of the drive to write letters to all the branch Red Cross organizations in the county, explaining the cost of the work being done by the organization and ask the chapters to vote as to what they want to do as a county unit the coming year.

After receiving the expression from the branches, a meeting will be held and a budget for the year adopted. The cost will be apportioned among the branches and each will be expected to secure its share of the quota in the drive.

## MAROONS ROUNDING INTO SHAPE FOR INITIAL CONTEST

In final preparation for the big plying event of the season, which will be staged with the Dayton Internationals at Reserve Park Sunday afternoon at 2:30 o'clock, the Xenia Maroons will practice Friday evening at 7:30 o'clock.

Dr. Moeller, former Ohio State man is injecting Dr. Wilce football ideas in the crowns of the local gridders by the bushel-full and strenuous and long practices have been on the program since he took charge of the rehearsals. Bugs, who traverse the way to the Cincinnati avenue gridiron on the coming Sunday, have a pleasant surprise in store for them in the line-up of the locals. While the nucleus of the eleven is made up of veterans of last year's victorious squad, there are many new faces in the line-up, some of whom have not been seen in local football for some time.

Dr. Moeller himself, will probably play quarterback in the initial set-to, running the team with Ohio State plays and signals from the pivot position. Phil Buck, the husky half of last year has been shifted to full back, while William Leachey, Russell Carr, and several other lads while probably alternate in taking care of the other backfield positions. At the ends will be found "Shorty" Confer, former High School star, who will probably take care of one flank, while Cliff Hoag, of last year's Maroons, Durward and William Derrick and other promising flankmen will be disposed of in those positions.

The line is well taken care of with a flock of huskies who are filling the forward positions nicely, and the prospects for an even better team than last season, are bright.

The new New York law which makes it a misdemeanor for a person willfully to furnish false information to a publisher for publication went into effect last week.

The new statute extends the scope of the libel law by making it possible to hold the person who furnishes false information liable for damages. Heretofore, when a spurious article or news item was sent to a newspaper, the proprietor of the publication alone was liable for damages.

## Our Reason for Existence—

Building and loan associations stand in peculiar relations to the public. Their ostensible purpose is to promote building. The state carefully inspects their affairs to give depositors confidence, and they receive special consideration at its hands.

Their function is to act as agent for the investing public. Money, on which they pay interest, is deposited in their hands to be loaned to promote building.

Long experience—in our case almost thirty years—has proved that they can operate on a margin of 1 per cent. difference between what they pay for money and what they charge the borrower. We have paid all our expenses and accumulated a reserve of over \$90,000 on that basis.

Now, when borrowers are quite willing to pay 7 per cent on mortgage loans, why should not the building and loan company pay its depositors 6 per cent?

Therefore we pay

## HALF DAY SESSION IN GREENE COUNTY SCHOOLS NOT LIKELY

No action regarding the establishment of the half day session plan in the rural schools, such as is in effect in several other counties has been taken here by County Superintendent of Schools H. C. Aultman or by the county board of education.

The plan of half-day sessions has been adopted in some rural communities in order to permit boys of working age to assist on the farms a half day, because of the recent labor shortage. In schools working under that plan, the pupils assemble earlier and are permitted to go home either at 12 or 1 o'clock.

According to Mr. Aultman, this system was more prevalent during the war, when the labor shortage problem was most poignant, and no demand for such arrangements seems to exist now. At Yellow Springs, however, school was started a little earlier this year, in order to permit children employed in the canning factory to continue their work.

While the half-day plan is not improbable, there has been no discussion of the matter as yet, according to the county school head, and it is likely that the plan will not be adopted in Greene county this year.

## CENTRAL HIGH SQUAD LEAVES FOR HILLSBORO FOR OPENING GAME

The Central High School football squad, in charge of Coach Ward Young left Xenia at 10 o'clock Friday morning for Hillsboro, where the team plays Hillsboro High School, Friday afternoon.

Because the game is the first of the season, Coach Young took practically the entire squad and it is probable that the mentor will use more than eleven men in settling the initial grid-iron argument.

The following lineup has been selected by the coach to start the game, the line-up however being subject to change at a moment's notice: Purdom left end; McCoy, left tackle; Douthett, left guard; Holland, center; Currie, right guard; Dones, right tackle; Cowan, right end; LeSourd, quarterback; Davidson, left halfback; McCallister, right half back; Boxwell, captain, full back.

Besides these eleven players, the squad will be increased by the following others will make the trip in the big truck and stand a good chance of getting into the fray: Ballentyne, Donald Currie, Lackey, Randall, Vannorsdall, Yeakley, McFadden, Ross, Stoops, Regan, Smith, Curlett, Hagler, Mason. Besides these players, A. H. Spahr, member of the board of education, John R. Beachem, business manager of the schools, Dr. C. H. Denzer, who will referee the game and Coach Young will accompany the team.

Thursday evening, skull practice was the chief feature of the practice program. The mentor gave his proteges

## Coal Coal Coal

We unloaded last week nine cars of coal, as follows:

1 Pocahontas Lump  
2 Pocahontas Egg  
5 Crystal Block White Ash  
1 Ohio Lump

We are unloading today, 2 cars Crystal Block White Ash and 1 car Crystal Egg.

Crystal Egg is unexcelled for use in cooking and heating stoves. There is practically no Pocahontas coal available for domestic use at this time. We still have a few tons of Pocahontas Egg on the yard, and expect to have plenty of both Lump and Egg a little later on. None of our customers need fear but that we shall have their orders filled before cold weather.

Call 22, either phone—or better still come to our yard and look us over and leave your orders.

Yours for Satisfactory Service.

## EAST END NEWS

Rev. E. A. Hester left Wednesday for Charleston, Huntington and Routevere West Va. He will be gone a few days on business.

Dr. J. W. E. Bowen and Miss Hallie Q. Brown addressed a fair sized audience at the Xenia Opera House Wednesday night. Both delivered able and forceful speeches and dealt instructively with the campaign issues. Both are noted scholars and speakers with international reputation and they held their audience spellbound with their oratory. The audience was representative and the speakers liked the Emancipation Day celebration to woman's emancipation and elevation by the ballot. Both strongly urged the people to take an active part in the coming election for the straight Republican ticket.

Mrs. Farris Porter of Taylor St. is on the sick list this week. A splendid Clarence Smith preached a brotherly sermon at the Middle Run Baptist church Thursday evening. His theme "Prove Me Now." Friday evening the First A. M. E. congregation and pastor Rev. James Maxwell will have charge of the services. Stops Pain  
Like Magic

In grandmother's day the first thought was Lightning Hot Drops when some one had a pain—and pain vanished every time this old reliable remedy was used.

New fangled and more costly things have won the younger generation away from some of the good old-fashioned remedies, but the demand for Lightning Hot Drops is greater today than ever.

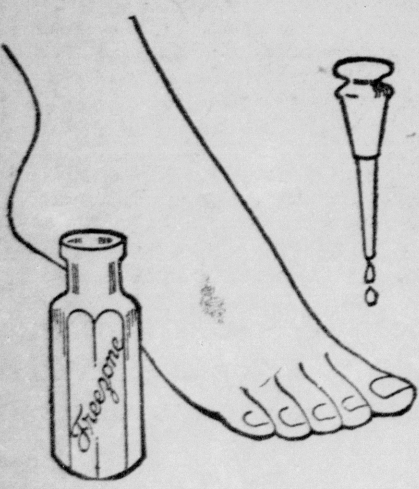

Nothing else so quickly relieves cramps, stomach and intestinal pains, rheumatic and neuralgia pain, toothache, earache and similar distress.

Lightning Hot Drops, for internal and external use, costs only 30c and 60c a bottle. At druggists—guaranteed.

**Lightning HOT DROPS**

## "FREEZONE"

Lift Off Corns! No Pain!

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic! No humbug!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Freezone is the sensational discovery of a Cincinnati genius. It is wonderful!

SAGE TEA TURNS  
GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

That beautiful, even shade of dark, glossy hair can be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

S. S. Walker, pastor. Preaching regularly at 1 a. m. and 7:30 p. m. Come and encourage the work.

Methodist Episcopal Market St. Rev. E. Simmons pastor. Preaching 11 a. m. and also at 7:30 p. m. We are struggling hard, so pray for us and help us.

Main street Christian church, Rev. John Evans, pastor. Preaching 10:30. Sunday school 12:20. Mrs. Theodore Sanford Supt. 6:30 Christian Endeavor. Roy Robinson, Pres. 7:30. Regular evening service. You are welcome.

First A. M. E. Church, Jas. H. Maxwell, pastor. Sunday will be the last of this conference year as the annual conference will set on Wednesday the 29th of September. We are urging all members and friends to attend all of the services this day in order that we may close the conference year fittingly. There will be features of special interest to all who are interested in the success of the church. Preaching at 10:00 and 7:30 Sunday school 12:00 Mrs. G. W. Maxwell, Supt. All are welcome.

Zion Baptist church, Cedarville, O. H. O. Mason, pastor. The conclusion of our contest Rally will be held Sunday September 26th at which time we are expecting to raise at least \$500.00. Special services all day, two candidates will be baptized before the morning service. Rev. C. P. Smith of South Charleston will preach at the afternoon service and Rev. Joseph Thompson of Washington C. H. will preach at night. All are cordially invited.

## JEWISH PEOPLE TO CELEBRATE FEAST OF THANKSGIVING HERE

The Feast of Thanksgiving will be celebrated next week by the people of the Jewish religion all over the country, and although there is no synagogue in Xenia, local Jews will hold the season sacred.

The Thanksgiving feast is a time set aside for giving special thanks to the Lord for the fruits and flowers of the earth. It begins next Monday and will end the following Sunday night. At the opening and at the closing of the week special services will be held in Jewish churches in larger cities. Little children will take part in the festivities and will march in procession carrying flowers and fruit. Following the services the fruits and flowers will be given to people in the hospitals.

Orthodox Jews celebrate the season more elaborately. Booths of leaves and branches of trees are constructed in the yard and here every evening during the week the people entertain their friends, and dine and make merry, much the same as Christians celebrate the feast of Thanksgiving in November of each year.

## Heart and Home Problems

Dear Mrs. Thompson: I am twenty-four years old. Seven years ago I left my old home town and came to this part of the state. When I left there I was deeply in love with a girl and I swore to be her friend as long as I lived. We have corresponded together all these years and I find that I still love her with a stronger love than ever.

Two weeks ago I got a telephone message from a neighboring town, sent by her, asking me to come there and meet her. When I met her she confided in me that it would help her out of a difficulty if I would marry her. She asked me to be loyal to her.

I want to marry her because I love her dearly and she loves me. My folks are against it. It is not that she is a bad girl, as she is not. She is a very good girl. Her difficulty has not resulted from any fault of hers but it is the reason my folks object.

Please give me your point of view. Shall I go against the wishes of my folks and let love conquer? I wish to stay loyal to her and stick to her no matter what happens. My folks think I have the wrong idea. The girl is twenty-one years of age.

LONESOME LUKE.

Let love conquer if you are sure your feeling is love and not the worshiping of an ideal. You are a few years younger than I feel a man should be to make his choice of a life companion, but that should not stand in the way of your happiness if you use judgment.

How will you feel ten years from now? Will you be happier if you have stood by the girl in her difficulty? Will you have contentment of mind if you know you have failed to help? Are you sure that she is as loyal to you as you are to her? I believe you are the only

one to work out your problem. Be true to yourself and if you are doing what you feel to be right, the fact that your parents' object should not alter your decision. Do not treat their reasons lightly. Much happiness could be spared if children would heed the mature viewpoints of their parents. On the other hand, parents sometimes err and by their advice stand in the way of great happiness for their children.

Dear Mrs. Thompson: Can you please tell me how to remove grease spots from paper picture frames?

Also tell me why silver knives and forks get dark marks on them and how I can prevent them from getting that way? E. K. W.

Put magnesia on the grease spot with blotting paper over it. Then iron the blotting paper.

All silver tarnishes. The only thing that can be done to keep silver looking bright and new is to clean it often. Get a silver polish from your grocer and follow the directions given on the bottle or the jar in which the polish comes. Be careful not to get rubber bands next to your silver, because rubber tarnishes silver quickly. The yolks of eggs tarnish silver unless the spoon is washed as soon as it is taken from the table.

Dear Mrs. Thompson: I am a girl sixteen years old. I am so fat I would like to get rid of my fat. Please tell me what to do. A. K. M.

It is dangerous to try to reduce unless you follow the advice of a good physician. Dieting is about the only way that flesh can be removed. Exercise, too, is a good thing. I would advise you to talk to your physician about the matter and ask him to recommend a method by which you can reduce.

### ZENA RENTS A FLAT FOR HERSELF AND MOTHER

Chapter 125

"I shall soon be able to send for mother," I said to Mary about six months after her marriage. "That means that you will leave us," her voice trembled a little although she smiled.

"Yes, but I shall try to get an apartment near here so we can be together often. You will love my mother, I am sure."

"I think I shall be afraid of her, Zena. I never knew any real fine ladies like your mother must be."

"She is fine, Mary, and that is why you will not be afraid of her but she longs to be with me, although she has been fairly happy with Aunt Susan Bracket. And she may miss the country, and the flowers, etc. But you see Mary, there are only two of us, and we should be together if possible."

"I think so too! and it was selfish of me to feel sorry to lose you. I don't know how we'll ever get along with the shop when you ain't here to advise us. Tom said the other night that you were earning a salary and didn't get it."

"Nonsense! and Mary, mother's coming will make no real difference in those things. I shall always be as much interested in you and Tom, and in the shop. I may not be able to be with you quite as much but you can come to us and in that way we'll keep in touch with each other."

constantly. But mother isn't here yet. I have to find a flat, just three rooms and furnish it complete. "I'll help! and Zena, there's a new apartment house just finished about two blocks from here. It looks awfully nice on the outside."

"We'll go and look at it tomorrow." I had saved two hundred dollars, besides sending mother more than ever before and buying myself some working clothes. I was sure I could furnish my three rooms with the two hundred and as I would not have to send mother money, since she would take it all and manage the huge. I was positive we could get along nicely. Mr. Claxton Altho I intended to before I decided upon anything, as I would have to give him as reference perhaps.

The house was just as nice inside as out. I looked at several of the apartments and finally took the refusal of three rooms and bath up two flights of stairs. The rent was twenty-five dollars a month, all and more than I felt I should pay. But I hated to make mother climb any higher, although the one above was \$22.50.

The agent asked me for references as I expected.

I told Mr. Claxton, explained my plan to bring mother on to live with me then asked if he was willing the agent should telephone him as to my ability to pay and as to my desirability as a tenant.

"Certainly! and Miss Stewart. I shall give you \$40.00 a week hereafter. Your work is worth it."

I was delighted. Now I would not feel that perhaps I had paid too much rent for the apartment. Surely with \$40.00 a week mother and I could live very comfortably even if things were high.

It would take me at least two or three weeks to get ready for her and as the increase in my salary was to go into effect immediately it would be a great help in paying her railroad fare.

I hated to spend even car-fare after I had rented the flat. I begrudged every penny I spent that didn't go toward furnishing it and getting it ready for mother. Mary helped every minute she could spare from the shop. She made the curtains, covered pillows, hemmed linen, even insisting on taking some of the sewing to the shop to do if trade was dull. Tom, too, helped me wonderfully and saved me a good deal by doing many things I should have been obliged to hire a man to do.

"I don't know what I should have done without you two," I said as I bade them good night after we had all spent a good long evening at the flat.

"I don't know what we should have done—don't been without you. Zena. We are very happy to be able to help. Mary said seriously.
